

Sustainable Engineering Alliance Membership Pack 2026

Foundation and Framework membership options designed to amplify your brand's presence in the sustainable engineering sector.

Option 1: **Foundation** Membership

Why Members Choose Us

We've been asking ourselves: what matters most to our members, and why do new members keep joining us?

Price

You can become a Sustainable Engineering Alliance member for as little as £155.00 per month (ex vat). You receive monthly, real value, from a trusted source. Consistent visibility in our Hall of Fame and at least one* high-impact project.

Discount

Foundation members receive a choice of one project across a twelve month cycle. They typically come back for more, so we reward this with a discount on extra projects.

Collective

Our members can place their brand under our sustainability umbrella, whether that means entering a new market or earning recognition for exceptional work already achieved.

The Choice is Yours:

Choose your **Big Splash** Project

Your Foundation membership starts with one high-impact project. This gives you a publicity asset with enduring value across multiple audiences.
